

We're playing a round for our new playground!

KidSwing Golf Tournaments are excited to announce that funds raised during the 2018 and 2019 tournaments will be used to build and equip an interactive, multisensory playground at the new Scottish Rite for Children Orthopedic and Sports Medicine Center in Frisco.

Designed to allow ease-of-access for children at all levels of physical ability, the playground will feature swooping slides, colorful activity cubes and a soft, poured-in-place surface that allows all children to safely experience the joy of active play.

The new playground will provide a fun way to help our patients regain health and strength, and will serve as a meeting and play space for friends and neighbors in the surrounding area.

Join us as we bring this budding vision into full bloom - for our patients, their families and our entire community!

To make a donation or find out more about how KidSwing is helping make a difference for our patients, please visit us online at KidSwing.org or call 214-559-7650.
